Recycled Nylon 6/6 from Carpet Property Description Sheets
CARE POST CONSUMER

RECYCLED NYLON 6/6 FROM CARPET

PROPERTY DESCRIPTION SHEET

DENSIFIED GRADE II-A

Type of nylon: State how determined
(Product name if available)

Material form: (indicate form) Condux
California pellet
Other (describe)

Packaging: (indicate the shipping packaging) Boxes
Super sacks
Other (describe)

Color (indicate color) Natural
Mixed color
Gray
Black
Other (describe)

Bulk density (per ASTM D1895): lbs/ft³

Density (per ASTM D792) ~ 1.2 gm/cc

Ash Content (per ASTM D5630) <2 %

Contaminates: (indicate any known contaminate other than household dirt)

Has the material been processed in any way? (If so describe)

Additional material details: (indicate other testing or processing of the material)

These data are presented for the purpose of describing a “Grade II” product being sold and should not be construed as specifications. Actual data for engineering use of this material should be drawn from samples taken at random through out each lot number.

Because of the nature of this description and product variances in properties occur.

PROPERTY DESCRIPTION SHEET

DENSIFIED GRADE II-B

Type of nylon: State how determined
(Product name if available)

Material form: (indicate form) Condux
California pellet
Other (describe)

Packaging: (indicate the shipping packaging) Boxes
Super sacks
Other (describe)

Color (indicate color) Natural
Mixed color
Gray
Black
Other (describe)

Bulk density (per ASTM D1895): lbs/ft³

Density (per ASTM D792) ~ 1.2 gm/cc

Ash Content (per ASTM D5630) >4, <8 %

Contaminates: (indicate any known contaminate other than household dirt)

Has the material been processed in any way? (If so describe)

Additional material details: (indicate other testing or processing of the material)

These data are presented for the purpose of describing a “Grade II” product being sold and should not be construed as specifications. Actual data for engineering use of this material should be drawn from samples taken at random through out each lot number. Because of the nature of this description and product variances in properties occur.
