CARE Membership

Membership that makes a sustainable difference
Why Join CARE?

If you are either directly involved in, or aligned with, the carpet industry, we ask you to support the efforts of CARE and do your part to make a sustainable difference.

As a member of CARE, you will be part of a nationwide organization that is diverting carpet from the landfill and finding valuable uses for post-consumer carpet.
Membership Benefits

- Voting Rights
- Committee Involvement
- Discounted Annual Meeting Fees
- Members’ Only Events
- Membership Directory
- Access to CARE’s Membership Web Area
- Educational Resources
- Use of CARE Logo and Other Marketing Materials
- Membership Certificate
- Listing on CARE Website
- Discount Programs

Equipment Manufacturers

Note:
The following list of equipment manufacturers is for your information only. It will be your responsibility to contact the manufacturer and involve the contact with your application to determine what best fits your needs.

Each of these manufacturers have been contacted and are currently aware of the difficulties of processing post consumer carpet waste and are eager to assist you in your application.

Please be advised. Each equipment manufacturer will provide instructions on how best to configure your PCC for processing with their machinery. Their interest will be for their equipment to provide the best of service to you.

NOTE: CARE makes no warranty or recommendations concerning equipment, procedures, etc.

ID Technology

Note:
The following list of identification technology manufacturers is for your information only. It will be your responsibility to contact the manufacturer and involve the contact with your application to determine what best fits your needs.

Each of these manufacturers have been contacted and are currently aware of the difficulties of processing post consumer carpet waste and are eager to assist you in your application.

Please be advised. Each identification technology manufacturer will provide instructions on how best to configure your PCC for identification with their machinery. Their interest will be for their equipment to provide the best of service to you.

NOTE: CARE makes no warranty or recommendations concerning equipment, procedures, etc.

CARE: Carpet America Recovery Effort (CARE)

Global

Direct Info
Type: Common Interest - Beliefs & Causes
Description: Carpet America Recovery Effort (CARE) is a joint industry-government effort to increase the amount of recycling and reuse of post-consumer carpet and reduce the amount of waste carpet going to landfills. CARE was established as a result of a Memorandum of Understanding for Carpet Stewardship (MOS), a national agreement signed by members of the carpet industry, representatives of government agencies at the federal, state and local levels, and non-governmental organizations.

CARE Mission Statement: CARE’s mission is to develop market-based solutions for recovering value from discarded carpet to meet the goals of the negotiated outcomes.

To accomplish its mission, CARE facilitates, advises, provides resources, and serves as a forum for the many different stakeholders.

CARE is funded and administered by the carpet industry, which agrees to use CARE to:

- Enhance the collection infrastructure for post-consumer carpet.
- Serve as a resource for technical, economic and market development opportunities for recovered carpet.
- Develop and perform quantitative measurement and reporting on progress toward the national goals for carpet recovery.
- Work collectively to seek and provide funding opportunities for activities to support the national goals for carpet recovery.

Keep Carpeting out of our Landfills!

Global

Basic Info
Type: Common Interest - Reeks & Causes
Description: The environment is on everyone’s mind these days. Every little bit helps!

This group educates consumers on the danger of carpet in our landfills. Most carpet is made from oil, a rapidly depleting and increasingly dangerous and expensive resource.

Discarded carpet is becoming a multi-million dollar property liability. Landfill charges will likely double every 5 years or so now. The actual cost of new carpet is still far less inflated than almost any other industry. However, other costs associated with carpet replacement, such as removal, installation, disposal, transportation, and regulation have created a demand for environmentally sensible alternatives. For landfill costs alone, one company has calculated their cost to exceed $4 million over 10 years.

It's time to reduce, reuse, and recycle.

We encourage those concerned with how carpet disposal affects our environment, as well as those in the flooring industry to share stories, facts, and ideas about keeping our landfills safe.
