

# Got Carpet? Recycle It!

## Prep It!

## Take It!

Old wall-to-wall carpet and carpet tile can be recycled when brought to the right place.

**California Carpet  
Stewardship Program**

An initiative of CARE: Carpet America Recovery Effort

### Keep the carpet:

- ✓ Dry with no debris
- ✓ Cut into manageable sections and rolled
- ✓ Separate from pad.

Bring the carpet to a CARE drop-off site.

For up-to-date listings, hours and rates, see our map at [CarpetRecovery.org/CA](http://CarpetRecovery.org/CA)

# Carpet is **Recyclable!**

Recycled carpet material is used in many ways, such as plastic parts for cars and trucks, insulation in walls and even as an additive in bullet- and blast-proof walls.

**If you're already recycling carpet: THANK YOU!**

**If not, the carpet you tear out can be recycled.**

Often you will pay less than the normal tip fee when you bring in clean, properly prepared carpet.

See our map for details on over 80 CARE public drop-off site locations: **[CarpetRecovery.org/CA](https://www.carpetrecovery.org/CA)**

## What is **CARE?**

Carpet America Recovery Effort (CARE) is a non-profit organization that administers the California Carpet Stewardship Program, which is charged with meeting the requirements for carpet recycling set by California law and managed by CalRecycle.
